About Rescue 3 Europe

Rescue 3 Europe produces and accredits state of the art safety and technical rescue training courses.

Rescue 3 Europe is the accrediting body for all Rescue 3 courses, students, instructors and training providers in Europe.

There are over 1,000 Rescue 3 certified instructors throughout Europe, delivering courses for over 150 Rescue 3 Europe training providers.

Becoming a Rescue 3 Europe training provider

All Rescue 3 courses are delivered through registered training providers. These can be agency training providers or commercial training providers.

All Rescue 3 Europe training providers must have access to appropriate classrooms, practical venues, student PPE and technical equipment to run their chosen course.

Contact the Rescue 3 Europe office so we can help you through the application process and discuss your individual needs.

Once the application form has been completed and all criteria have been met, you will be able to run your chosen Rescue 3 courses, using appropriately qualified instructors, and student course packs.

Rescue 3 instructors

Rescue 3 instructors are either:

- Agency instructors
Can only deliver within their agency

All instructors work for a registered training provider.

Rescue 3 course packs

All Rescue 3 courses are registered with Rescue 3 Europe. To do this, training providers order course packs. The contents of these packs vary from course to course, but as an example consist of skill sheets, manuals, badges, whistles, internationally recognised accreditation and all other paperwork necessary to run the course.

Commercial courses are typically a full pack, whereas some agencies chose to order a minimum pack. This consists of only the essentials to run the course, and thereby saves on costs. There is also an option of an annual fee for organisations who can then run as many courses as they wish within their organisation.

Contact Rescue 3 for more information on the most suitable option for your organisation.
